Pipe Story.

The case of Lucien G. Thorpe vs. The Akron Water Works company is being tried to a jury in Common Pleas court. The plaintiff claims that in 1884 he laid a one and one-half inch lead pipe from a spring on North Hill to his and other residences on Lods st. In 1895, the defendant in digging a trench for its own pipes, knocked a hole in that laid by Dr. Thorpe. In trying to stop the leak, the defendant stuffed a rag into the pipe. This shut off the water, so that for many weeks Dr. Thorpe's house and others were without service. He asks \$222 damages.

New Pleading.

Cora M. Butts is the plaintiff in a divorce case commenced against John T. Butts. She charges him with gross neglect of duty, habitual drunkenness and extreme cruelty.

SNAKE

Placed Under Arrest.

Wicklin and His Serpent Create Excitement.

Was Giving It a General Introduction.

Officer Charles Doerler Had His Hands Full.

Was Thrown Into a Show Case— Police Court News.

At 5 o'clock Wednesday evening Fred Wicklin, a well proportioned jag and a six-foot snake established themselves at the corner of Main and Exchange st.

The serpent Mr. Wicklin carried under his coat. He would beckon the people to him, and then suddenly produce the "Anti St. Patrick" to their gaze. The people screamed, the serpent hissed, and Mr. Wicklin laughed. Officer Doerler arrived in time to see Wicklin chuck something under his coat, and he collared him as a fit subject for arrest. Accidentally the snake fell to the ground, surprising the officer greatly.

Wicklin then explained that he had recently purchased the snake and was merely giving it a formal introduction to Akron citizens. Officer Doerler collected together Wicklin, the jag and the snake and took the aggregation to P. T. McCourt's livery stable, meanwhile telephoning for the patrol wagon.

The snake, which was suffering from a severe indisposition owing to cold and rough handling was piled in a helpless heap in a corner of the stable, and while Mr. McCourt was expostulating upon the necessity of quickly removing the snake from his property, were the reptile's safety to be considered, James Sword, accompanied by a bosom friend, named Jag, arrived at the stable.

They stole the snake and were leaving with it, when Officer Doerler also placed Sword and Jag under arrest. The patrol wagon arrived, and both Wicklin and Sword, the snake and the jags were taken to the City prison. The snake was dumped into an old bucket and some time during the night the shivering, quivering Ophidian subject died.

Thursday morning Prisonkeeper Washer carried the snake into police court. He intimated that it had been frozen to death, whereupon Mayor Young ordered it to be burned to death. The snake was placed in a furnace, and it is now no more—that is, the snake is no more.

Wicklin was much vexed at the outcome of the affair, claiming that he had paid a good price for the snake. Wicklin and Sword were each fined \$2 and costs, and Wicklin, it is said, will institute an action for damages against Washer and the city.

Chas. Sevonger was fined \$2 and costs for intoxication. He was arrested in a South Main st. saloon by Officer Baker. Just before the arrest was made, the saloonkeeper attempted to pitch Sevonger out the door, but missing calculation in the distance, the human missile instead landed on a show case, smashing the glass into fragments.

Case against George Whitworth, accused of assault and battery by Jerome Donih, continued to Monday, Nov. 13.

Pat Dugan, intoxication, \$2 and costs.

John Miller, vagrancy, 10 days and costs. Ed. Mayo, same charge, dismissed.

Cuyahoga Falls Council Against Local Option.

Expenses of Investigation May be Deducted From Engineer's Salary.

Cuyahoga Falls will not be "dry." So Council voted Wednesday night, and it is said that saloons will be opened by December 1.

The ordinance to repeal the local option ordinance passed first reading, and a motion to suspend rules was carried by four to one. Shumway refusing to vote. Ayes—Young, Oakley, Schlichte, Porter. Nays—Hall. The ordinance will be given second reading next Wednesday night.

A complaint was made against the running of open cars on the street car lines. Council took no action in the matter, and it is said that a number of citizens have declared their intention of swearing out warrants for the arrest of the Company if the open cars are continued in service.

The pay ordinance was passed—all but Mr. Robinson's claim. The investigating committee has investigated Mr. Robinson's work, and express its judgment that the plans for improving Front st. and the specifications for improving Second st. are wrong. An engineer will be engaged to look over the work. If he condemns it, the expense of the investigation will be deducted from Robinson's salary.

Eight Club League.

Another chapter in base ball history is soon to be turned says a New York special. The new American association has gained such strength and prominence that the National league magnates are vainly trying to head it off.

John T. Brush of Cincinnati, J. Earl Wagner of Washington, Barney Dreyfus of Louisville, Frank Dehass Robinson of St. Louis and Andrew Freedman of New York held a secret meeting in this city last night. While no definite statements have been made by the magnates, it is well known a reduction to an eight club league is desired and may be effected. Baltimore, Washington, Cleveland and Louisville will be bought up or dropped, leaving the league a strong field to fight the new association.

The National league magnates have been assured by Dreyfus that he can buy the Pittsburgh club, and it is said Baltimore and Brooklyn may be forced into an amalgamation. Meanwhile the association magnates are busy securing backing in the cities they wish to take into the circuit. Options have been secured on the Charles River park in Boston and on a plot of ground across the Harlem river in this city. Al and Tom Johnson are said to have assured the association magnates that if they secure backing in other cities they will give their support to the New York club.

DEADLOCK

Broken by Election of Teacher Sisler.

Interesting Contest in School District 9, Franklin.

The County Commissioners will decide the contest in District 9, Franklin township, by re-employing Mr. C. E. Sisler.

The Franklin township School Board deadlocked over the appointment of Mr. Sisler. Five members voted to employ him; four voted against it. A member moved to reconsider the vote. This was declared out of order by Chairman L. M. Kauffman. The chair declared a motion to appeal from the decision of the chair out of order.

The appeal was then taken to the County Commissioners. The opponents of Mr. Sisler raise the objection that he agreed a year ago not to reapply for the school if appointed a year. They claim that he violated this agreement by again becoming an applicant.

Other applicants for the position are Clarence D. Stump, E. S. Rhoades, W. F. Ludwick, V. M. Grubb, all of Summit county; F. A. Leaser of Canal Fulton and A. G. Skeels of Canton.

The County Commissioners are unanimous in retaining Mr. Sisler.

STIRLING

Boiler Co. Employees,

In Numbers Exceeding 400, on a Strike.

Difficulty Arose Over the Discharge of Employees.

Neither Side Gives Any Satisfaction to the Other.

Relative to Causes Inducing the Action Taken.

Indications are that a serious strike has started at Barberton. Today over 400 employees of the Stirling Boiler company are out, small crowds of men leaving the shop at different hours during Wednesday. It is claimed that the trouble originated two weeks ago. It was talked of at a meeting of the Central Labor Union, this city, several nights ago, but no definite action taken until Wednesday. The company, say the men, ordered the boiler makers' helpers to do some extra work, whereupon the helpers demanded more wages. This was refused, and some of the men dismissed. A committee representing the union to which the boiler makers belonged called on officials of the company, but got no satisfaction relative to the cause of the dismissal of the men.

Wednesday morning, 70 of the boiler makers left the shops at one time, others following at noon and more late in the afternoon. The superintendent of the company stated today that the men assigned no reason for quitting. He also says that the company has not yet arranged plans for meeting the strike.

The striking employees claim to have heard upon good authority that it is the intention of the company to fill their places with new men, and that already a large number of workmen have been secured in the east.

Serious trouble is anticipated when the new men are put to work. The machine shop employees have not yet joined the strikers, but persuasion is being used to induce them to come out also.

It is further stated that nothing has been done as yet to have the difficulty settled by arbitration.

True Economy

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cost many times this in doctors' bills.

Royal Baking Powder may cost a little more per can, but it insures perfect, wholesome food. In fact, it is more economical in the end, because it goes further in leavening and never spoils the food.

Royal Baking Powder used always in making the biscuit and cake saves both health and money.

You cannot, if you value good health, afford to use cheap, low-grade, alum baking powders. They are apt to spoil the food; they do endanger the health. All physicians will tell you that alum in food is poisonous.
